2017-18 ECONOMIC DEVELOPMENT SCORECARD (ITEM NO. 14, AGENDA OF JANUARY 5, 2016)

On January 5, 2016, the Board of Supervisors (Board) adopted a motion (Motion) by Supervisors Solis and Ridley-Thomas that called for the Chief Executive Officer (CEO), in consultation with various County departments and external stakeholders, to prepare a Countywide economic development plan and strategy for implementation. Additionally, the CEO was asked to establish an Economic Development Policy Committee (Committee), and to develop a reporting mechanism to measure the progress of future economic development initiatives.

The Economic Development Scorecard (Scorecard) is the report developed by the CEO and the Committee to measure the progress of the County's economic development program, and has been provided to the Board on four prior occasions. The attached December 2018 Scorecard is the first to present economic development data on a fiscal year basis and covers the fiscal year ending June 30, 2018. The December 2018 Scorecard was recently posted to the CEO's economic development website, and is available for download at <http://economicdevelopment.lacounty.gov/scorecards/>.

The CEO will prepare all future Scorecards on an annual fiscal year basis and deliver the next Scorecard to the Board by no later than November 2019. If you have any questions regarding the attached report, please contact Doug Baron at (213) 974-8355 or dbaron@ceo.lacounty.gov.

02 Workforce Development

19 Business Assistance

25 Business Loans and Financial Assistance

30 Capital Development

37 Regional Economic Data

INTRODUCTION

The December 2018 Economic Development Scorecard provides a means for measuring the progress of Los Angeles County's economic development programs across a variety of disciplines, including workforce development, business assistance, loan programs, financial assistance, and capital development. The Scorecard aims to facilitate effective partnerships between the County and the private sector. Additionally, the Scorecard provides a snapshot of the local economy, and seeks to demonstrate how County programs can be informed by the economic and demographic characteristics of the region.

With the Scorecard, the Chief Executive Office (CEO) is working to standardize data collection and reporting on economic development efforts Countywide. In this Scorecard, information is presented on fiscal year 2017-18. Moving forward, the Scorecard will be issued on a yearly basis, providing fiscal year data related to workforce development, business assistance, community development, capital development and the regional economy. The December 2018 Scorecard presents new infographics and statistics on newly added department projects such as current active local and targeted worker hire goals; updated data from the Community Development Commission's (CDC) RENOVATE program (small business renovation projects); the addition of Workforce Development, Aging, and Community Services' (WDACS) INVEST program (focused on the re-entry population); new infographics on small business and financial assistance programs; and updates to capital development projects managed by the CEO and CDC.

The foremost objective of this Scorecard is to provide policy makers information on the County's economic development programs by leveraging the work being done across departments, industry lines, capital programs and other multi-disciplinary County economic development efforts. With successful implementation of these programs, the County can seek to partner with growth industries that offer quality jobs that enable workers to support their families. The hope is that in turn, this will inform our policy making process to build a more dynamic workforce, particularly in the County's targeted industries, incentivizing the growth of small businesses, expanding the tax base, and assisting those individuals facing the greatest barriers to economic success.

WORKFORCE DEVELOPMENT

The Chief Executive Office (CEO) has refined the workforce data presented in previous Scorecards and continues to meet with the departments offering workforce development programs in order to streamline data collection.

Departmental programs serve a

variety of different populations and have reporting metrics that vary widely across the County. The Department of Workforce Development, Aging and Community Services (WDACS) and Department of Public Social Services (DPSS) administer the largest workforce development programs in the County, with WDACS managing the Workforce Innovation and Opportunity Act (WIOA) Adult and Dislocated Worker Program, the Rapid Response Program and various targeted programs for youths and seniors. Separately, DPSS oversees several distinct programs through its General Relief Opportunities for Work (GROW) and Greater Avenues for Independence (GAIN) programs. The Department of Human Resource (DHR) oversees programs to reduce barriers to County employment for the defined targeted populations. With each scorecard, the CEO streamlines data collection and reporting for workforce development programs managed by other County departments.

To date,

Inventory of Programs

The following pages display a listing of several of the most important County workforce development programs and the services they offer. Using information collected through numerous meetings with individual departments, the inventory provides a summary of the target populations and service goals of the County's programs for FY2017-18.

Since 2017, the County has moved forward with several new programs that focus on providing the County's justice-involved population with job opportunities with a holistic set of wrap-around services. Employment has been identified as a challenge that must be addressed for those with a criminal background. Fully 17,000 individuals are in the County jails at any time, with 10,000 individuals being released each month. However, between 60 to 75% of formerly incarcerated individuals are still unemployed a year after release. With a focus towards aligning workforce programs Countywide, the County departments have taken a number of steps to reduce the barriers to employment for the re-entry population. In February of 2018, WDACS, in partnership with Probation and the Office of Diversion and Re-entry (ODR) launched the Innovative Employment Solutions Program (INVEST). Invest seeks to improve employment opportunities and outcomes for County Adult Probationers, by co-locating Deputy Probation Officers at the America's Job Centers of California (AJCCs) to support the integration of probation and workforce development services, while providing intensive case management to participants. Since inception, 266 active felony probationers have been enrolled into the program across 6 participating AJCCs, and 24 individuals have been placed into permanent unsubsidized employment.

LOS ANGELES COUNTY WORKFORCE DEVELOPMENT AND JOB TRAINING PROGRAMS FY 2017-18

TARGET POPULATION	ADMINISTERING DEPARTMENT	PROGRAM NAME	SERVICE PROVIDED	SUCCESS INDICATORS	PARTICIPANTS	SUCCESSFUL COMPLETIONS (2017-18)

Performance of Workforce Development Programs Across Targeted Industries in Los Angeles County

The County seeks to encourage job training for industries that are most competitive and that will generate family sustaining career pathways. The Board has promoted the use of industry and sector partnerships to address the workforce needs of multiple employers within an industry. The Scorecard highlights the targeted high-growth industry clusters across the County and evaluates whether workforce development programs are aligning skilled and unskilled workers with these targeted sectors. Shown on the following page is data collected from WDACS for FY2017-18 for placement by industry cluster.

WORKFORCE DEVELOPMENT PROGRAMS

PLACEMENTS BY SECTOR FY 2017-18

HIGH GROWTH SECTORS*				
HIGH GROWTH SECTORS	EMPLOYERS	EMPLOYEES	% OF ALL EMPLOYMENTS	AVERAGE HOURLY WAGES**
BioScience	39	74	0.45%	\$18.68

** Excludes the Countywide Youth subsidized employment wages of \$12.00/hr.

*** Reflects data for America's Job Centers for Los Angeles County Workforce development Area.

Performance Of Workforce Development Programs By Target Population

The CEO asked those departments working to train and place targeted workers to describe their programs, the types of services provided, and the indicators used to measure programmatic success. As the County works toward streamlining the reporting requirements across County workforce development programs, the performance of programs across target populations is of particular importance. This will indicate the efficacy of programs for the most difficult to employ individuals, while guiding the County's strategy with regards to the sectors with the highest propensity to hire those with barriers. The County's objective in bringing services to targeted populations is aided by the fact that the WIOA program, and its affiliated AJCCs are already focusing directly on these individuals. WDACS has long indicated that a majority of those who come into contact with the AJCC system in Los Angeles County are targeted workers.

The specific information compiled by WDACS with respect to targeted populations indicates that a high percentage of WIOA participants are low income, basic skills deficient or recipients of government benefits. In fiscal year 2017-18, the County workforce system served 1,116 individuals who were receiving CalWORKs benefits, and 638 of those individuals were placed into either subsidized or unsubsidized employment, 71 of which were justice involved, and 49 of which were homeless or at risk of homelessness. The CEO endeavors to perform a longitudinal analysis of those receiving County social services over time to gauge their reliance on these services as they progress through the workforce development system and are able to retain permanent employment.

LOW-INCOME

An individual that meets one of the four criteria below:

1. Receives, or in the past six months has received, or is a member of a family that is receiving, or in the past six months has received, assistance through the Supplemental Nutrition Assistance Program (SNAP), Temporary Assistance For Needy Families (TANF), program supplemental security income program, or state or local income-based public assistance.
2. In a family with total family income that does not exceed the higher of the following:
 - a. The poverty line.
 - b. 70 percent of the Lower Living Standard Income Level.
3. A homeless individual.
4. An individual with a disability whose own income does not exceed the income requirement, but is a member of a family whose total income does.

BASIC SKILLS DEFICIENT

An individual that is unable to compute or solve problems, or read, write, or speak English, at a level necessary to function on the job, in the individual's family, or in society (WIOA Section 3[5]). Criteria used to determine whether an individual is basic skills deficient includes the following:

1. Lacks a high school diploma or high school equivalency and is not enrolled in post-secondary education.
2. Enrolled in a Title II Adult Education/Literacy program.
3. English, reading, writing, or computing skills at an 8.9 or below grade level.
4. Determined to be Limited English Skills proficient through staff-documented observations.
5. Other objective criteria determined to be appropriate by the Local Area and documented in its required policy.

Workforce Development Alignment

Since the release of the June 2018 scorecard, the CEO has worked with several departments to align workforce development services that are offered Countywide. It is the County's goal to track participants across the variety of workforce development services, streamline service delivery, and de-duplicate data reporting for services offered to individual clients across County programs to improve outcomes.

In this scorecard, data is presented on the populations served through the AJCCs, the number of individuals who completed and exited the various programs and the number of those individuals that were placed in employment. Additionally, data is presented on the number of individuals by priority population who were still employed in the second quarter and fourth quarter after exiting a program. Median quarterly earnings are also presented by targeted population as identified under the WIOA.

The tables show information on the different populations served by the County-administered AJCCs, and also the number of "matched" individuals receiving services through the Department of Public Social Services' GAIN program (CalWORKs). As the County moves toward alignment of workforce development programs, the scorecard will reflect the demographic makeup of

individuals who are receiving services through both WDACS and DPSS, as well as whether they are retaining employment, including earnings data. The CEO intends to track "matched" individuals over time to determine whether they are able to achieve a career pathway, while measuring the effectiveness of County services.

The median quarterly earnings for those placed into employment varied widely across targeted population. The "matched" data shows that the median quarterly earnings of the Foster Youth population is the lowest of the targeted populations at \$744 in the second quarter after exiting the program. Those who were receiving services through DPSS attained median earnings of \$3,178. By contrast, the highest quarterly earnings were attained by the disabled population, at \$7,354 in the second quarter after exit. Additionally, the data shows that among the priority populations in the CalJOBS system, the LA County Workforce Development Area serves the most low-income individuals relative to any other population, having served over 17,000 in fiscal year 2017-18. The same holds true for the "matched" DPSS population, with the majority of recipients being low-income.

WORKFORCE DEVELOPMENT PROGRAMS SERVICES BY PRIORITY POPULATIONS FY 2017-18

Priority Population Category	AJCC INDIVIDUALIZED CAREER SERVICES

Workforce Development Budgets

The majority of the County expenditures on workforce development originate from federal legislation related to the WIOA program and the Temporary Assistance to Needy Families (TANF) program. With respect to TANF funding, the County manages several initiatives related to the GAIN program that include the GAIN Job Club, Short-term Vocational Training, and Transitional Subsidized Employment. Additionally, the workforce development program GROW is funded with a combination of federal, State, and County contributions.

Beginning with the November 2017 Scorecard, the CEO attempted to quantify County spending on workforce development programs. A summary of those workforce development initiatives that have confirmed budget data is provided below. Of the 25 programs listed below, the County allocated \$219.8 million in programs costs to support workforce development programs. The amount financed by general operations (Net County Cost) is \$50.5 million.

WORKFORCE DEVELOPMENT BUDGETS FISCAL YEAR 2017-2018

ADMINISTERING DEPARTMENT AND PROGRAM	PROGRAM COST	REVENUE	IFT	NET COUNTY COST

FINANCING SOURCES

REVENUE: A source of income to an operation other than debt issue proceeds or the transfer from another fund.

INTRAFUND TRANSFER (IFT): An accounting mechanism used to reflect expenditure transfers between operations with the same fund, thereby identifying the true location of actual cost.

NET COUNTY COST: The amount of the operation financed by general purpose revenues, such as property taxes.

Local and Targeted Worker Hire

On September 6, 2016, the Board adopted a Countywide Local and Targeted Worker Hire Policy. In adopting this policy, the Board set forth the definition of a targeted worker as a resident of the County who has indices of career-limiting circumstances, specifically one or more of the following:

1. has a documented annual income at or below 100 percent of the Federal Poverty Level;
2. no high school diploma or GED;
3. a history of involvement with the criminal justice system;
4. protracted unemployment;
5. is a current recipient of government cash or food assistance benefits;
6. is homeless or has been homeless within the last year;
7. is a custodial single parent;
8. is a former foster youth;
9. is a veteran, or is the eligible spouse of a veteran of the United States armed forces.

Ensuring that local workers have employment opportunities on projects situated within their communities has long been a core element of economic development programs at the municipal level. To this end, the Board's Local and Targeted Worker Hire Policy imposes a 30% Local Hire goal and a 10% Targeted Worker hire goal on most major construction projects approved by the Board.

On March 21, 2017, the Board adopted a motion to establish a Countywide Construction Careers and Economic Development Initiative, to promote career pathways in the construction industry and to explore improvements to the existing Local and Targeted Worker Hire Policy. The CEO has evaluated the feasibility of amending the current targeted worker categories to align these categories more closely with those tracked by WIOA; and expects to recommend the following additional categories:

10. is an eligible migrant and seasonal farmworker;
11. is currently an English language learner;
12. is an older individual (55+);
13. is disabled; or
14. is an individual with a low level of literacy.

In addition to WDACS' ongoing role in working with target populations from Page 7, the County has included local hire goals on a project-by-project basis for the past several years. The departments that have implemented the policy are Internal Services Department, Department of Parks and

WHAT IS A "LOCAL WORKER?"

A Local Resident is defined as an individual living within the Tier 1 or Tier 2 ZIP Codes of the County.

Before employing worker(s) from Tier 2 ZIP Codes, the available pool of local residents whose primary place of residence is within Tier 1 ZIP Codes must first be exhausted.

TIER 1

Tier 1 means ZIP Codes within five (5) miles of the proposed project site, and where the average percentage of households living below 200 percent of the Federal Poverty Level (FPL) is greater than the County average for such households.

TIER 2

Tier 2 means any ZIP Codes within the County where the average percentage of households living below 200 percent of the FPL is greater than the County average for such households.

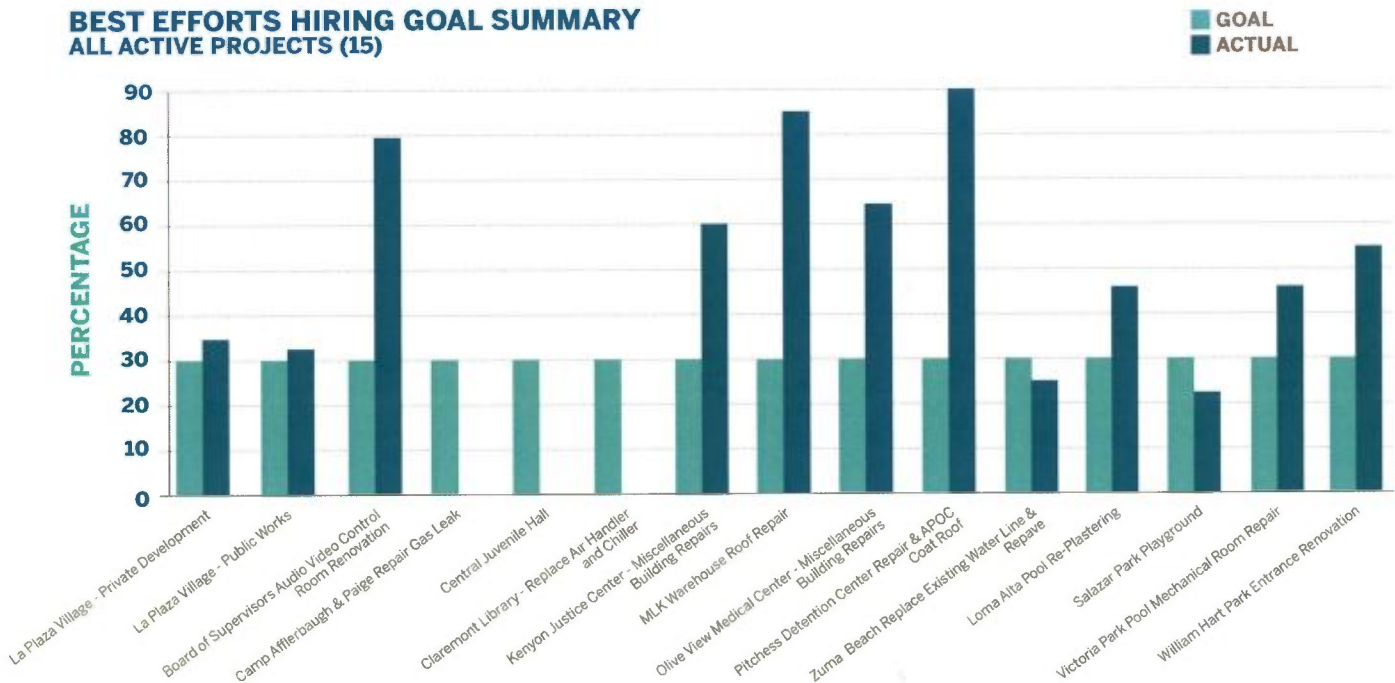

This definition shall also apply to affordable housing projects and for privately financed developments located on County property.

Recreation, the Music Center project managed by the Chief Executive Office, the Community Development Commission, and the Department of Public Works. The departments have the responsibility for managing these local hire practices, and for tracking compliance with specific project objectives. As shown on page 16, there are total of 73 active projects that are now incorporating the Local and Targeted Worker Hire Policy.

To highlight the Department of Public Works, the projects that have incurred actual construction hours, local worker hire has been successful on 15 of 16 projects where the County imposed a mandatory hiring goal, and on 18 of the 23 projects where a best efforts goal was imposed.

BUSINESS ASSISTANCE

The County's Economic Development Program is committed to deploying County resources in a targeted and thoughtful way to leverage investments to support both workforce and business development in County growth industries.

On July 21, 2015 the Board of Supervisors established a Small Business Initiative (SBI) charged with supporting small business throughout the County through streamlined service delivery. A year later, on July 12, 2016, the Board established a four-year Small Business Utilization Plan to increase contracting dollars awarded to the County's certified Local Small Business Enterprises (LSBE) and Disabled Veteran Business Enterprises (DVBE) by 25% and 3%, respectively. This four-year plan also directed the Department of Consumer and Business Affairs (DCBA), in consultation with relevant departments, to develop a new certification for Social Enterprises (SE). DCBA serves as the County's Small Business Advocate and is the department responsible for the administration of the above referenced preference programs as well as the SBI.

Local business cultivation and expansion is central to regional economic development and the Scorecard endeavors to measure the County's progress in supporting the business community. New information regarding the efficacy of the County's business utilization plan, as well as layoff aversion services will be presented in an upcoming scorecard. Information about businesses served by the Small Business Concierge is also presented.

DEFINING SOCIAL ENTERPRISE (SE)

To be identified as a Los Angeles County Social Enterprise, a business must:

Be certified or registered by any of the following organizations:

- B Lab Corporation, which certifies businesses as a B Corporation.
- California Secretary of State, where businesses can register their business entity as a Benefit or Social Purpose Corporation.
- City of Santa Monica, which offer a Green Business Certification.
- City of Los Angeles, which offers a Green Business Certification.

Register as a vendor with Los Angeles County

- During the registration process, the business will be asked to provide their mission statement, a description of their programs, services, and responses to questions that provide further detail on the business's social impact.

DEFINING LOCAL SMALL BUSINESS ENTERPRISE (LSBE)

Los Angeles County uses the same criteria to define local small business as the State of California's Department of General Services (DGS). To qualify, a business must:

- Be independently owned and operated.
- Not be dominant in its field of operation.
- Have its main office in Los Angeles County for at least the last 12 months.
- Have owners (officers in the case of a corporation) who live in California and be either
 - A business with fewer than 100 employees and an average annual gross receipts of \$14 million or less over the last 3 years.
 - A manufacturer with 100 or fewer employees.

DEFINING DISABLED VETERAN BUSINESS ENTERPRISE (DVBE)

To be identified as a Los Angeles County Disabled Veteran Businesses Enterprise, a business must:

Be certified by one of the following departments:

- The U.S. Department of Veterans Affairs (VA), which certifies businesses as Service Disabled Veteran Owned Small Business (SDVOSB).
- The State of California Department of General Services (DGS), which certifies a business as a DVBE.

Register as a vendor with Los Angeles County

- During the registration process, the business will be asked to provide information on its VA or DGS certification.

SMALL BUSINESS ACTIVITY FY2017-18

FY 2017/2018 Annual Totals	Q1	Q2	Q3	Q4	TOTAL

Number of certified businesses who won contracts with County	704				

Source: Department of Consumer and Business Affairs (DCBA)

Small Business Development

To achieve the goals set forth in the Utilization Plan, DCBA continued to work with County departments to expand the pool of certified businesses so that they can take advantage of the incentives given to certified businesses and win contracts with the County. Accordingly, the Scorecard tracks the number of certified LSBEs, DVBes and SEs each quarter and the number of new certifications.

This year, through interagency partnerships, DCBA has obtained certified vendor lists from jurisdictions including the California Department of General Services (DGS), Metro, and the Veteran's Administration (VA). DCBA has then used these lists for targeted outreach to increase the County's certified vendor pool.

Guided by DCBA, the County has made progress towards the 25% small business utilization goal and 3% disabled veteran business utilization goal established by the Board. There has been an increase of over \$67 million dollars awarded to certified small businesses from Fiscal Year 2016-17 to Fiscal Year 2017-18. This represents an increase of 23% in dollars awarded to certified small businesses in Fiscal Year 2017-18.

To make further progress toward the 25% and 3% utilization goals, DCBA is working with the small business advocates from each County department to establish a "Mini-Utilization Plan" for each department. These plans document the steps the department will take to increase the number of contracts being awarded to small and disabled veteran businesses.

Small Business Concierge

The Small Business Concierge Program (Concierge) was established in January 2015 by motion of the Board as a single point of contact to assist local business owners and potential business owners in starting and growing their businesses in the County. The Concierge provides counseling services to prospective small business owners, offers guidance and technical assistance in the small business development process, and helps potential businesses navigate through the licensing and permitting process. Further, the Concierge ensures that workforce development services and small business programs are integrated to maximize services and effectively respond to the needs of businesses across a variety of sectors.

The Concierge has assisted businesses ranging from plant nursery to commercial construction and wine cellar installation and design. DCBA is continuing to gather information regarding the number of new businesses that opened, revenue generated, and jobs created with the support of the Concierge.

Layoff Aversion

The Department of Workforce Development, Aging and Community Services (WDAC) oversees a layoff aversion program to provide technical assistance to businesses of any size that are in financial danger. The layoff aversion program begins with confidential consulting for businesses to develop an individualized Action Plan to access local capital, remain in the County and prevent layoffs of employees and ultimately business closure. This service is provided at no cost to the business. The information regarding the layoff aversion program for fiscal 2017-2018 to date is displayed above.

Average Permitting Time

The Economic Development Scorecard was created to measure the progress of the County's economic development programs across a variety of disciplines, including how to more effectively serve the County's business community. The Board has long-signaled the importance of encouraging business growth as part of a multi-pronged economic development effort. In November 2014, the Board elevated the visibility of a one-stop office to serve small businesses, and in August 2015, the Board asked multiple departments to implement a web-based approach to permit streamlining. The web-based effort, EPIC-LA, has been fully implemented by Regional Planning and the Department of Public Works, and is a comprehensive approach to land entitlement, inspections, and code enforcement.

This past year, the CEO has been working with the involved departments to streamline the planning and permitting process for businesses. This has included an evaluation of the regional one-stop offices throughout the County, as well as a workgroup to create quarterly reports from data being measured in EPIC-LA. It is the CEO's intent to track the length of different business processes through data captured in EPIC-LA, and work with departments to devise process improvements if warranted.

WDACS LAYOFF AVERSION SERVICES

- **At Risk Businesses:** Businesses that are "in danger of laying off employees."
- **Action Plan Development Services include:** Access to Industry Councils, Assistance with Expedited Permitting, Exploring Tax Incentives, Workforce Training & Development Referrals, Exploring Access to Capital, Project Management, Site Selection and Relocation, Referrals to Public Services, Connections to Public/Private Partners and Resources, Cost Containment Analysis
- **Businesses Notified:** Businesses are monitored for signs of decay using financial stress scores, and active engagement with the business. Businesses who are found to be in danger of laying off employees are contacted and given information on Layoff Aversion Services.

BUSINESS LOANS AND FINANCIAL ASSISTANCE

Since 1987, the Los Angeles County Community Development Commission/Housing Authority (CDC) has provided a variety of loan products to assist businesses in Los Angeles County in their retention, expansion, and

customer attraction efforts. Since the dissolution of redevelopment in 2012, the CDC has continued to foster neighborhood reinvestment and blight removal in low and moderate income unincorporated areas through façade improvement programs, commercial storefront renovations, and business loans. These programs provide financial and technical assistance to support business tenants and property owners, and seek to help beautify business districts by making them more inviting for shoppers and residents as neighborhoods are revitalized.

Further, the CDC engages in significant coordination with the Department of Business and Consumer Affairs (DCBA) to provide small business assistance to the businesses receiving the façade loans in order to most effectively deploy the County's wrap-around services in an effort to holistically support businesses.

In August of 2017, the CDC announced a streamlining of their small and medium business loan programs, which is now known as SMART Funding. This greatly simplifies the process for prospective borrowers. SMART Funding offers competitive loan programs created to support a variety of established businesses. SMART Funding through the CDC now offers personalized business capital options, focusing on four areas of economic development: manufacturing, clean technology, health care services, and transportation-adjacent development. Potential loans can

* Estimated dates. Projects are currently in pre-construction phases

range from \$25,000 to \$1.5 million, and are deployed to help businesses purchase necessary equipment, acquire commercial property, build capital, and create and retain jobs. All loans are being tailored to specific business needs.

Blight Removal

By eliminating blight in a neighborhood, the County and CDC can work with public and private partners to increase property values in the surrounding area and catalyze investment in the neighborhood. The CDC has facilitated blight removal through its business façade improvement program. This program remains a focal point of neighborhood business revitalization.

Investments in façade improvements have continued through a new Community Business Revitalization Program called RENOVATE. The RENOVATE program has been limited to County unincorporated areas but the CDC will be seeking partnerships with neighboring municipalities to expand the program further.

The recipient of these funds is required to ensure that improvements are maintained in good condition for 10 years. Eligible improvements include design assistance; façade restoration; windows, doors, lighting, and signage; removal of non-conforming elements; and accessibility improvements. The objective of RENOVATE is to stimulate investment in the community, revitalize commercial corridors, and support the growth of small businesses. On the previous page is data for the CDC's façade program, which includes completed and active projects in FY2017-18 and FY2018-19.

Business Assistance Loans

The CDC has historically provided loans to small and medium sized commercial/industrial companies to grow their businesses and create jobs. Funds from the loan program can be utilized for real property acquisition, working capital, land acquisition, construction, and equipment purchases. The CDC's loan programs have included Micro, Business Expansion, and Float loans. The primary funding sources for the CDC's business loan programs have been provided through the Community Development Block Grant (CDBG) and Economic Development Administration (EDA). Both are federal funding sources with an emphasis on job creation, neighborhood and business development and assisting those in economically distressed neighborhoods. The Board of Supervisors has also contributed County General Funds towards a Manufacturing Revolving Loan Fund. In addition, the LA Metro has collaborated with the CDC to establish a business loan program targeted towards businesses located next to major transit stops.

In Fiscal Year 2017-18, CDC kicked off its SMART Funding marketing campaign with a series of pamphlets, brochures and a presence on social media. With the assistance of this campaign, the CDC funded five loans for over \$1.3 million in FY 17-18. The CDC currently has seven active loan underwritings and is currently pursuing 50 potential leads. The anticipation is the underwriting pipeline will turn into pending loan approvals in future quarters.

Below is a table listing the Fiscal Year 2017-18 loans that have been funded to assist local area businesses.

FY 2017-18 CDC COMMERCIAL LOANS FUNDED

Property Assessed Clean Energy (PACE)

In addition to the loan programs administered by the CDC, the County also manages a residential Property Assessed Clean Energy (PACE) Program, which makes loans to individual property owners through direct assessments on the property tax bill. Established pursuant to California Assembly Bill 811 (2008), the County's PACE Program provides financing for energy efficiency upgrades

and renewable energy installations on private residential property. In Fiscal Year 2017-18, the PACE Program funded approximately \$195 million in home energy improvements which created 1,925 jobs throughout the County. A summary of FY 2017-18 PACE assessments and job creation is provided in the table below.

Center for Financial Empowerment

The County's Center for Financial Empowerment (CFE) was launched in 2016 as a two-year pilot-program to connect residents to resources that build household financial capability and wealth to achieve greater economic security and well-being. Households with financial goals, savings and other assets have greater stability and increased opportunity for upward mobility. In addition to income, families also need knowledge of and access to affordable financial products and services; incentives to encourage savings and investment; and consumer protections in the financial marketplace.

The Department of Consumer and Business Affairs administers the CFE and serves primarily two populations: 1) youth and young adults aged 16-24; and 2) those eligible for the State and Federal Earned Income Tax Credit (EITC). The CFE coordinates a Volunteer Income Tax Assistance (VITA) Program for the EITC-eligible population. The CFE worked with the Department of Public Social Services to bring VITA services to underserved areas in the County

and continued its partnership with the City of Los Angeles and a cohort of non-profit agencies to promote increased awareness of the EITC under the "Free Tax Prep LA" campaign. For the 2018 filing season, the "Free Tax Prep LA" collaborative helped constituents claim over \$8 million in State and Federal EITC dollars (a 23% increase from the previous year).

The CFE completed its pilot period, is working to establish permanency, and continues to market its services and expand its client base throughout the County. The CFE published and distributed over 1,500 copies of a comprehensive financial resource guide to County departments and non-profit agencies throughout the County. In addition, the CFE hosted two outreach events this summer to launch the Bank On Los Angeles County Program which aims to connect the county's unbanked residents to safe and affordable bank accounts.

CAPITAL DEVELOPMENT

San Pedro Courthouse

Grand Avenue Project

The Economic Development Policy Committee has defined economic development projects as those where there is private sector participation that results in tangible economic development benefits beyond just the construction of County facilities. Private sector participation will be defined as

any material use of a County-owned, or County-funded, facility by a non-profit or private entity following completion and delivery of the project. Such use of the facility must result in direct economic development benefits for the community, including job creation for non-County employees, commercial development, retail investment, blight removal, affordable housing, or any other activity that improves the economic well-being of local residents.

The following projects and their impact on the community will be monitored for inclusion in future versions of the Scorecard. The Scorecard will seek to capture statistics such as the percentage of Local and Targeted Workers hired on the project, small business, disabled veteran business and social enterprise utilization, number of jobs created, increase in the tax base and percentage of affordable housing incorporated into the project, among other community benefits. While the majority of the County's economic development projects are managed by private developers, oversight is nonetheless provided by either the County CEO or the CDC.

The CEO is responsible for managing the following projects:

SAN PEDRO COURTHOUSE

The vision of the San Pedro Courthouse Project is to provide public amenities and development to complement the City of Los Angeles' new San Pedro Waterfront Redevelopment project at the existing Ports O'Call Village. The City's redevelopment project is seen as a key step in transforming San Pedro's once industrial waterfront into a regional destination that includes dining, music, and tourist attractions. The Department of Public Works issued a developer solicitation in June 2018. Proposals were received in September and are currently being evaluated.

GRAND AVENUE PROJECT

The Grand Avenue Project Phase I, located on Grand & First in Downtown Los Angeles, consists of a mixed used development with residential and hotel towers, parking, public plaza, retail/commercial spaces, streetscape, and site landscaping on County-owned property (Parcel Q) developed by Related Company's Phase I Developer. Phase I is comprised of two high-rise towers, one including a hotel, and one including residential apartments and condominiums units.

The proposed hotel tower (Tower 1) will consist of an approximately 308 key rooms, 4-star Equinox hotel with meeting space and ancillary hotel amenities. The proposed residential tower (Tower 2) will combine approximately 323 market rate apartments with approximately 89 affordable housing units and approximately 113 market rate condominiums (20 percent of the gross number of apartment and condominium rentals.)

HONOR RANCH PROJECT

The Honor Ranch project, located adjacent to Interstate 5 in Santa Clarita, consists of a feasibility study that includes project analysis for geotechnical, environment, design, entitlement, site surveys, and inspections of the County-owned Honor Ranch properties. The initial feasibility study included an evaluation of existing conditions and potential infrastructure upgrades that will be required to develop the site. The County released a Request for Information (RFI) on October 22, 2018. The RFI was distributed to potential developers in order for the County to evaluate potential development alternatives. The information obtained from the RFI will assist the County in determining the development opportunities that will: maximize revenues to the County; provide a project consistent with Board priorities such as environmental sustainability; and include significant community benefits.

HARBOR-UCLA-LA BIOMED

The Harbor UCLA-LA BioMed project consists of new research facilities designed to accommodate a bioscience incubator. It will provide technical support and business services to assist researchers with advancing promising new biomedical discoveries to the next stage of commercialization. The objective is to retain and grow promising new technologies and the jobs they create for the benefit of County residents. The Board recently certified a Harbor-UCLA Medical Center Campus Master Plan Project Environmental Impact Report (EIR). This EIR includes the development of 250,000 square feet of buildings and associated surface and structured parking in the Bioscience Tech Park on the west portion of the Harbor-UCLA Medical Center Campus. Further, the Board directed the CEO to enter into an Exclusive Negotiation Agreement (ENA) with LA BioMed to include a vision, structure, and process for developing this bioscience tech park. Included in the tech park will be the biotechnical research facility and bioscience incubator designed to catalyze a bioscience ecosystem in Los Angeles County.

The CDC has oversight responsibility for the following development projects:

VERMONT CORRIDOR

Vermont Corridor is the redevelopment of seven County-owned parcels spanning three city blocks of the Koreatown area within the City of Los Angeles. The project area involves three separate sites, each with a unique development scenario. On May 22, 2018, the Board certified the final environmental impact report for the project and took several other actions allowing the Vermont Corridor project to proceed.

Vermont Corridor
Site 1 – County Administrative Building

Vermont Corridor
Site 1 – County Administrative Building

The development on Site 1 would involve removal of the existing Department of Parks and Recreation office building at 510 South Vermont, a vacant office building, surface parking lots and parking structure, and construction of a new 21-story building consisting of an 8-story parking structure with up to 965 spaces, a terrace level, and 12-story office tower, with approximately 7,500 square feet of ground floor retail space and public serving uses. An adjacent parking structure will also be

built with access around the corner on Shatto Place with 768 parking stalls to accommodate additional staff and guests. When complete, the new Vermont Corridor County Administration Building would accommodate the relocation of staff from the Department of Mental Health (DMH) and WDACS.

Development of Site 2 consists of a 66-year ground lease with Trammell Crow, which would involve the adaptive reuse of the existing 12-story DMH building into a maximum of 172 market rate residential rental units. Approximately 4,100 square feet of ground floor retail would be located along the main entrance on Vermont Avenue and 3,400 square feet of ground floor retail would be located along 6th Street.

Development on Site 3 will be for the construction of a new six-story 100 percent senior affordable housing project (available to senior tenants earning between 30 percent and 60 percent of area median income) containing 72 units, an approximately 13,200 square foot community recreation center, and a three-story underground parking structure, with 116 spaces. Site 1 of the Vermont Corridor Project broke ground on October 17, 2018. Demolition of Site 3 is currently underway.

Vermont Corridor
Site 2 – Residential and Retail

Vermont Corridor
Site 2 – Residential and Retail

VERMONT – MANCHESTER

On April 26, 2018, the County gained possession of the property located at the northeast corner of Vermont and Manchester Avenue in south Los Angeles. The property is approximately 4.2 acres and is located along a busy transportation corridor. The entire site received environmental clearances under the Transit Priority Project CEQA exemption. The proposed project for the entire site includes a charter boarding school with the remaining area set aside for a mixed-use affordable housing development. After having been granted possession of the property in April, the County issued a Request for Proposals for development of the mixed-use affordable housing project. The County has secured environmental clearances that allow up to 180 units of housing and up to 50,000 square feet of commercial/retail space. An Exclusive Right to Negotiate Agreement was executed with the selected development team on October 22, 2018. A funding application for the affordable housing component was submitted to the CDC on October 23, 2018.

3RD AND DANGLER

The County and CDC own properties along the Gold Line Light Rail transit route in the Unincorporated East Los Angeles Area. The parcels are located at the northwest corner of East 3rd Street and South Dangler Avenue in East Los Angeles. The County and CDC consider the parcels to be ideally situated for a mixed-use, transit-oriented development opportunity.

A Request for Proposals for development of the property was released in October 2017. Proposals were received January 8, 2018. The proposals have been evaluated and a recommendation was presented to the County Board of Supervisors on July 31, 2018. An Exclusive Right to Negotiate Agreement was executed on September 20, 2018 with the selected development team.

Martin Luther King, Jr. Medical Office Building (MLK – MOB)

MARTIN LUTHER KING, JR. MEDICAL OFFICE BUILDING (MLK – MOB)

The MLK – MOB project will be the construction of an approximately 52,000 square foot medical office building with 252 parking stalls located at the southwest corner of East 120th Street and S. Wilmington Avenue in the Willowbrook area of Los Angeles County.

As part of the Martin Luther King, Jr. Medical Center Campus, the MOB is to provide quality office space to private and non-profit tenants for administrative, medical outpatient services and health related services in coordination with the new MLK Hospital and MLK Outpatient Center.

The Board authorized the CDC to act as the County's agent for development of the MLK-MOB on September 26, 2017.

FAIRVIEW HEIGHTS TOD PLAN

The Downtown and Fairview Heights Transit-Oriented Development (TOD) Plan sets urban design concepts, zoning regulations, development standards, design guidelines and streetscape plans for the areas within one-half mile of the Downtown Inglewood (Florence/La Brea) and Fairview Heights (Florence/West) stations on the Metro Crenshaw/LAX Line.

Over the past year, the CDC has worked collaboratively with the Los Angeles County Metropolitan Transit Authority (Metro) to select a development team from a Request for Proposals (RFP) issued in for the potential development of the County Properties contained within the Fairview Heights TOD plan. The County property is located at 923 East Redondo Beach Boulevard in the City of Inglewood, immediately adjacent to Metro's Crenshaw/LAX Line. LINC-Core, consisting of LINC Housing (a nonprofit) and National Community Renaissance (a nonprofit), was selected as the developer under an Exclusive Negotiation Agreement (ENA). The ENA was approved in November 2017, which includes an initial term of 18 months with options to extend the term up to an additional 12 months if needed.

The development team is comprised of seven (7) subcontractors and community partners. The development team has proposed a four-story, mixed-use development on the 1.44 acres at LEED Silver or higher with automotive and bicycle parking, multiple courtyards, and a community garden. The project will consist of 101 affordable residential units with 5,000 square feet of community room space and 5,000 square feet of commercial space.

LA Plaza Cultura Village Project

LA PLAZA CULTURA VILLAGE PROJECT

The LA Plaza Cultura Village Project consists of a lease agreement between the County and the LA Plaza de Cultura y Artes Foundation (Foundation) to permit the development and use of a mixed-use, transit-oriented, infill development totaling up to 425,000 square feet (sq. ft.), including up to 355 residential units (for lease), with 20 percent of those reserved as residential units affordable to moderate-income households. Additional components include up to 50,000 sq. ft. of visitor-serving retail, including, but not limited to, a restaurant, a cafe, other food services, and a “commissary” or shared commercial kitchen space for culinary demonstrations and use by small businesses. These visitor-serving uses are intended to complement the Olvera Street retail and restaurant businesses.

The LA Plaza Project includes a historic paseo to link Union Station through the shops and restaurants on Olvera Street; through the El Pueblo de Los Angeles Historic District and the project, and extending to the Fort Moore Pioneer Memorial on North Hill Street; a rooftop restaurant and garden; bicycle amenities; and up to 786 parking spaces, including up to 150 replacement parking for the spaces removed by the Project and that would be made available to County employees.

In the most recent quarter, the project achieved 30.5 percent local hire, 15.9 percent disadvantaged worker hire, and 30 percent local job training for the public portion of the project (paseo and offsite improvements). For the private portion of the project (housing and commercial buildings) La Plaza Village LLC achieved 26.7 percent local hire, 15.5 percent disadvantaged worker hire, and 51 percent local job training. As of the last quarter, La Plaza Village LLC also trained 25 transitional employees over the duration of the project.

The project is targeted to complete construction by January 2019.

EXPO/CRENSHAW SITE

Located at the intersection of the Expo Line and the future Crenshaw/LAX Transit Line, this site has superior regional connectivity to employment and activity centers including Santa Monica, Culver City, USC, Downtown Los Angeles and Los Angeles Airport. The guidelines for this site identify the opportunity for a culturally distinct gateway destination and pedestrian-scaled community serving residents and visitors with high quality and local-serving retail use and a range of housing types that are affordable to existing residents. It also identifies opportunities to foster job growth with attractive office or incubator space.

Expo/Crenshaw Site

The Expo Crenshaw project site is located at the southwest and southeast corners of Exposition and Crenshaw Boulevards, immediately south of the Expo Line; the proposed Crenshaw/LAX Line will run under Crenshaw Boulevard once completed. The potential development will take place on 1.66 acres of County-owned property and 1.77 acres of Metro-owned property, which are located in the City of Los Angeles. The Board of Supervisors approved the Short-Term Exclusive Negotiation Agreement (Short-Term ENA) between the County (acting through the CDC), Metro and the Watt Companies in December 2017.

The Short-Term ENA is an interim measure to allow the developer time to conduct additional community outreach prior to executing a full-term ENA. The Short-Term ENA also allows all parties the ability to directly communicate about project scope and team composition while engaging the community about the proposed project prior to committing to a long-term ENA.

As proposed, the project includes the following:

- 492 residential units, 15% (75 units) will be affordable for households earning 50% of the area median income (\$32,150);
- 47,500 SF of community serving space envisioned

to include a grocery store and restaurant space for locally-owned businesses;

- Business incubator space;
- Ground floor community meeting space;
- Mobility hub to provide bicycle and car share connections;
- Three (3) acres of public open space; and,
- An opportunity to add a station entrance on the County site to facilitate safe connections between the two transit lines.

The Short-Term ENA is for a period of six months with no extensions. Watt Companies, Metro and the County have engaged the community through meetings and have been negotiating the various components of the project. The project is currently in the community outreach and design phase. Should all parties agree to move forward, an Exclusive Negotiating Agreement would be drafted for approval by the Board of Supervisors that will allow for project refinement and entitlements to occur, in addition to negotiating the ground lease terms.

2018f: 2018 Forecast

s home to more than 10 million residents with a labor force of around 5 million, it is essential to evaluate the regional economic trends in directing the County's Economic Development program. The regional economic data in this Scorecard highlights the

characteristics of the County economy that can help shape efforts related to: workforce development and job training; business assistance; financial assistance; business loans; and capital development.

The data presented in this scorecard shows that County employment is projected to grow at an average annual rate of just over 1% over the next five years, adding 235,500 jobs to the County workforce. According to the Bureau of Labor Statistics, the September 2018 unemployment rate in Los Angeles County was 3.8 percent, which is over 9 points below the July 2010 peak of 13.2 percent, and the lowest unemployment rate for the county in decades. The employment data shown on this page provides evidence that Los Angeles County has recovered from the recession of 2008-09. Yet there remain many indicators that show signs of economic weakness. This is particularly true for federal poverty level statistics, which reveal that the percent of individuals living below the poverty line in Los Angeles County remains high at 14.9%. To the extent that the County strives to influence local economic performance, there is a need to address the inequities that continue to exist in the Los Angeles economy.

One of the principal features of the County's economic development program is to focus resources on individual industries and occupations that are forecasted to experience future growth and expansion. The U.S. Bureau of Labor Statistics reports that in 2017, the median income in Los Angeles County was \$65,006. In contrast, according to the Los Angeles County Economic Development Corporation, the top five occupational groups that are projected to experience the most new job openings over the next 5 years are:

1. personal care and service occupations with a median annual wage of \$30,498;
2. food preparation and serving occupations with a median annual wage of \$28,194;
3. office and administrative support occupations with a median annual wage of \$42,326;
4. healthcare practitioners with a median annual wage of \$93,200; and
5. Sales and related occupations with a median annual wage of \$43,904.

The remaining tables in this Scorecard provide specific information regarding Los Angeles County industries and occupations, and their projected growth rates for the five-year period of 2017 to 2022. Given the County's role as the first layer of government in the unincorporated areas, the economic development programs referenced in this Scorecard can be expected to achieve their greatest impact within these regions.
